(NICAP notes; Columbus Ledger, Ohio, Mar. 28, 1966.) A Georgia investigator reports that on this date at 5:30 am in Muscogee County, a radar-visual sighting was made of an object that appeared to change shape from cigar to wedge to triangle; apparently the same sighting. 660725	Fulton County Airport	GA	9	R	5				3:50 a.m. Federal Aviation Administration officials observed multi-colored oval objects that alternately hovered and moved around, confirmed on radar. One sped away. At 4:25 am another oblong object was observed hovering. Similar sightings occurred early the following morning, but this time not seen on radar. (Hitt, 1999.)

660801	Prince George's County	MD	9		5				12:30 a.m. EDT. Citizens and police in College Park, Lanham, Bowie, Seat Pleasant, and elsewhere around the region saw maneuvering, fast-moving lighted objects. When a police officer approached a hovering object that had pulsating red, green, and white lights, it began a series of maneuvers, descended almost to the ground, then sped away "like a shot." Before it sped away, the object emitted a strange multi-colored light beam that moved rapidly to the ground, also observed by another officer. Andrews AFB denied to a County police dispatcher that they had any unknown objects on radar, but the dispatcher said a control tower operator had acknowledged seeing a fast-moving lighted object, and he later learned that Andrews did have a UFO on its radar but would not admit it officially. (U.F.O. Investigator, Vol. III, No. 9, Aug. -Sept. 1966, p. 4.)
