Citizens and police in College Park, Lanham, Bowie, Seat Pleasant, and elsewhere around the region saw maneuvering, fast-moving lighted objects. When a police officer approached a hovering object that had pulsating red, green, and white lights, it began a series of maneuvers, descended almost to the ground, then sped away "like a shot." Before it sped away, the object emitted a strange multi-colored light beam that moved rapidly to the ground, also observed by another officer. Andrews AFB denied to a County police dispatcher that they had any unknown objects on radar, but the dispatcher said a control tower operator had acknowledged seeing a fast-moving lighted object, and he later learned that Andrews did have a UFO on its radar but would not admit it officially.
