The start of a power failure, which affected about 2,500 homes in the area, was officially timed at 4:57 a.m. It was later attributed to a breakdown in the insulation of the wiring at a point very near the apartment building. Later that evening investigators detected some abnormal radiation on the window sill where the object had been seen. (Keyhoe & Lore, 1969b, pp. 45-47; Walter N. Webb investigation report; U.F.O. 660424	Dorchester	MA	4					5:00 a.m. EDT. The same family as in the previous entry saw an identical oval or discoidal object with dome and yellow light on top and red lights around the edge. flashing in the same pattern as the night before. The object emitted a humming sound and "weird, whirring, mechanical noises" as it bobbed around apparently close to the building. An explosive sound was heard, the windows rattled and furniture shook, and the lights went out. The family German shepherd doo whined and scratched at the door (animal reaction). The start of a power failure, which affected about 2,500 homes in the area, was officially timed at 4:57 a.m. It was later attributed to a breakdown in the insulation of the wiring at a point very near the apartment building. Later that evening investigators detected some abnormal radiation on the window sill where the object had been seen. (Keyhoe & Lore, 1969b, pp. 45-47; Walter N. Webb investigation report; U.F.O. Investigator, Vol. III, No. 8, May-June 1966, pp. 7-8; Fowler 1974, p. 340.)
660424	Johnson City	TX	2					3:30 a.m. CDT. An architect and Naval reserve officer camping out with his daughter heard a fluttering sound, then they saw a disc-like object (estimated 20 feet diameter) with a double row of lights or ports around the rim hovering 150-200 feet away at treetop height. It appeared to be rotating, and a blue light pulsed around its rim. The UFO gradually accelerated and moved away to the southwest. (NICAP report form; U.F.O. Investigator, Vol. III, No. 8, May-June 1966, p. 8).

660516	Temple City	CA	1						12:30 p.m. PDT. A newspaper editor and office manager were called outdoors to see a grayish-green object high in the northern sky changing shape from rectangular, or roughly diamond-shaped, to domed disc. The object, apparently metallic, was reflecting sunlight. Haze-like heat waves surrounded it. For 15 minutes the object moved around lazily, then suddenly sped off to the northeast and disappeared. The editor compared the departure speed to that of a jet aircraft.
660516	Temple City	CA	1						About 1:10 p.m. at a school in the area, the principal noticed the children on the playground staring at something in the sky. 660524	Temple City	CA	2					4:15 p.m. PDT. A woman driving in Temple City saw a strange object approach from the southwest, hover and bob around. She stopped and observed the object at relatively close range, at treetop level across a wide highway. "It was the shape of two geranium pots put together with the bands in the center," she said. Although the object was clearly outlined, there was a slight haze surrounding it. The color was bright green. Flashes of sunlight reflected off the surface, giving it a metallic sheen. On the body were what appeared to be a row of louvers and an antenna-like projection. After several minutes the object climbed to the northeast, observed as it moved away by employees of a nearby restaurant who were alerted by the witness. (Los Angeles NICAP Subcommittee report.)
660601	Lake Ontario	CAN	2					10:30 p.m. LT. A former RCAF pilot and a friend were cruising on the lake when they saw lights on the water ahead. As they approached within a mile, the lights rose with an audible "swish" and a pulsating humming sound. The two men now could see that it was a disc with dome on top, and it cast an oval reflection on the lake surface. Around the dome was a row of bright yellow lights, and blue-green lights were visible around the lower perimeter (body lights). After hovering briefly, the UFO took off at high speed and quickly disappeared. (U.F.O. Investigator, Vol. III, No. 9, Aug.-Sept. 1966, p. 5)

660617	Abington, Berkshire	UK	1					8:50 p.m. LT. Two nuclear scientists reported seeing a very bright yellow object above a cloud bank on the western horizon, moving slowly. The object then accelerated northward and disappeared behind a tall bank of clouds. About 10 minutes later the same or a similar object appeared traveling from north to south, stopped and hovered in the northwest sky for about 30 minutes. The object then diminished in apparent size and was hidden by clouds near the horizon. When viewed through 10 x 60 binoculars, the object had a conical shape and was reflecting sunlight. Its length was computed to be about 60 feet. (Flying Saucer Review, Vol. 12, No. 5, Sept.-Oct. 1966, pp. 27-28.)

Julian Sandoval, a NASA contract flight engineer, also an experienced pilot and navigator, and two independent witnesses saw a glowing elongated object with blunt end. It had a series of four body lights varying from brilliant green to a bluish tinge, and was hovering at an estimated 12,000 feet. When the object moved, its glow brightened and it appeared to be a powered craft (luminosity/motion correlation). The witness watched the object for an hour and a half, after which it climbed vertically, accelerated to a high velocity and disappeared to the northeast in about 12 seconds. In a report to NICAP, Sandoval estimated the departure speed at "Mach 6 or better." (Christian Science Monitor, July 11, 1966; I/. P.O. Investigator, Vol. III, No. 9, Aug.-Sept. 1966, p. 3.)
