## RAAF Captures Flying Saucer On Ranch in Roswell Region

### House Passes Tax Slash by Large Margin

#### Defeat Amendment By Demos to Remove Many from Rolls

Washington, July 8 (AP)—The house passed today the Republican-backed bill to cut income taxes by \$4,000,000,000 annually for 49,000,000 taxpayers, beginning Jan. 1:

It goes to the senate where approval also is forecast.

The vote was 302 to 11, or more than the two-thirds majority

### Security Council Paves Way to Talks On Arms Reductions

Lake Success, July 8 (AP)—The United Nations security council today approved an American blueprint for arms reduction discussions despite a Russian warning that the plan would bring about a collapse of arms regulation efforts.

The vote was 9 to 0, with Russian and Poland abstaining.

In view of Russia's firm stand against the U. S. plan it had been believed she might invoke the big power veto to block it.

Soviet Deputy Foreign Minister Andrei A. Gromyko gave his warning before the United Nations security council in a new effort to

# Security Council Paves Way to Talks On Arms Reductions

Lake Success, July 8 (AP) — The United Nations security council today approved an American blueprint for arms reduction discussions despite a Russian warning that the plan would bring about a collapse of arms regulation efforts.

The vote was 9 to 0, with Russian and Poland abstaining.

In view of Russia's firm stand against the U. S. plan it had been believed she might invoke the big power veto to block it.

Soviet Deputy Foreign Minister Andrei A. Gromyko gave his warning before the United Nations security council in a new effort to revive the Soviet working plan which already had been rejected by the commission for conventional armaments.

His challenge was taken up promptly by French delegate Alexandre Parodi and U. S. Representative Herschel V. Johnson, who announced their opposition to any substitute for the American plan.

Gromyko insisted that no program for arms regulation could succeed unless the plan was linked directly with an absolute prohibition of atomic weapons.

He declared that the U. S. plan approved by the commission did not link the problems of arms reduction and the banning of atomic weapons and, for this reason, it offered no basis for a solution.

Gromyko opened debate on the arms question as delegates awaited another major declaration from him later in the day in reply to United States and British demands for action to restore order in the critical Balkan situation.

Delegates agreed they were approaching perhaps the gravest moment in U. N. history.

Gromyko said the U. S. program was not a plan but merely a document outlining a series of broad generalizations. The Soviet proposals on the other hand, he said, offered specific points which should be dealt with, such as the regulation of war production, distribution of armed forces and military transport.

"It is obviously," Gromyko added, "that the commission cannot work out a plan without linking it to atomic control."

This is directly contrary to the main principle of the U. S. plan, which provides that all atomic problems would be handled by the atomic energy commission and not by the commission for conventional armaments.

Some delegates saw in his speech an indication that he was preparing to invoke the big power vote to block council approval of

# No Details of Flying Disk Are Revealed

## Roswell Hardware Man and Wife Report Disk Seen

The intelligence office of the 509th Bombardment group at Roswell Army Air Field announced at noon today, that the field has come into possession of a flying saucer.

According to information released by the department, over authority of Maj. J. A. Marcel, intelligence officer, the disk was recovered on a ranch in the Roswell vicinity, after an unidentified rancher had notified Sheriff Geo. Wilcox, here, that he had found the instrument on his premises.

Major Marcel and a detail from his department went to the ranch and recovered the disk, it was stated.

After the intelligence office here had inspected the instrument it was flown to "higher headquarters."

The intelligence office stated that no details of the saucer's construction or its appearance had been revealed.

Mr. and Mrs. Dan Wilmot apparently were the only persons in Roswell who have seen what they thought was a flying disk.

They were sitting on their porch at 105 South Penn. last Wednesday night at about ten minutes before ten o'clock when a large glowing object zoomed out of the sky from the southeast, going in a northwesterly direction at a high rate of speed.

Wilmot called Mrs. Wilmot's attention to it and both ran down into the yard to watch. It was in sight less than a minute, perhaps 40 or 50 seconds, Wilmot estimated.

Wilmot said that it appeared to him to be about 1,500 feet high and going fast. He estimated between 400 and 500 miles per hour.

In appearance it looked oval in shape like two inverted saucers, faced mouth to mouth, or like two old type washbowls placed together in the same fashion. The entire body glowed as though light were showing through from inside, though not like it would be if a light were merely underneath.

From where he stood Wilmot said that the object looked to be about 5 feet in size, and making allowance for the distance it was from town he figured that it must have been 15 or 20 feet in diameter, though this was just a guess.

Wilmot said that he heard no sound but that Mrs. Wilmot said

# Miners and Ope Highest Wage P

Washington, July 8 (AP) — An agreement averting a nationwide soft coal strike was signed today by John L. Lewis and a majority of the bituminous operators.

In announcing the signing, Lewis told a news conference that it is "reasonable to assume" the entire industry will accept the agreement within a few days.

Washington, July 8 (AP) — An agreement under which 150,000 of the nation's soft coal miners will work when "willing and able" at the highest wage in history was signed today.

Harry M. Moses, representing the steel companies, and Charles O'Neill, of the northern commercial operators, signed for their operations employing the 150,000.

Other operators from the Midwest and Far West, who employ an additional 150,000 miners, were waiting their turn to put their signature to the pact, negotiated
