

CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

1. Date Between 17 & 21 May 1947 Incident # 82
2. Time Just after dusk - (2030 & 2100)
3. Location Oklahoma City, Okla.
4. Name of observer Byron B. Savage
5. Occupation of observer Field Engineer for Radio Corp of Amer.
Holder of a private pilot's license
6. Address of observer 416 N. W. 29th St., Oklahoma City, Okla.
7. Place of observation As above
8. Number of objects 1
9. Distance of object from N/S observer
10. Time in sight 15 - 20 seconds
11. Altitude 10,000 - 12,000 ft
12. Speed 3 times that of jet
13. Direction of flight 160° south to 350° N
14. Tactics straight flight
15. Sound loud swishing sound after passage
16. Size bulk of six B-29's
17. Color frosty white
18. Shape Round but disc-like with no protrusions
19. Odor detected N/S
20. Apparent construction N/S
21. Exhaust trails None
22. Weather conditions N/S
23. Effect on clouds N/S
24. Sketches or photographs None
25. Manner of disappearance flew out of sight
26. Remarks: (over)

Savage stated that he realized that the object was not a conventional aircraft when it was at a 45° angle from him. It appeared elliptical and as it moved closer it seemed perfectly round and flat. It had no appearance of being spherical and had a ratio of diameter to the thickness of approximately 10 to 1, appearing thicker in the center. He judged the altitude to be between 10,000 to 18,000 ft and the object left no trailing effects. The bulk seemed to be that of 6 B-29's at an altitude of approximately the same height. The speed was 3 times that of a jet-propelled aircraft. There were no protrusions and there was no noise altho he thought he detected a swishing sound "like the rushing of air" after this object had passed him. The sound was not loud and did not last very long. He did not know if it was his imagination or expectation. The color appeared frosty white at all times. The object appeared to diminish in size and speed as it moved away in a direction of 350° to the north. Savage was sure that the object was not a meteor and it was his opinion that it was radically built and power - possibly atomic.
