<b>10. BRIEF SUMMARY OF SIGHTING</b> Sources were U.S. Army soldiers on patrol. On 1st patrol they observed a very bright, fuzzy light to the west above the horizon, large as grapefruit. It was cold, drizzly, windy & cloudy. On 2nd patrol they observed a pulsating light that looked "like a star" for 25 mins about 45° above horizon towards the SSW. Determined that they had discussed their separate sightings among selves before rptng them. (determined by AF Investigators).		<b>11. COMMENTS</b> This obviously another case where rpt was influenced by famous Level-land case which took place few hrs before & was given nation-wide publicity by press, radio & TV. Sources very young (18-20) impressionable & on duty in a lonely, isolated desert post. Interviewers agreed that their statements were magnified out of proportion. Conclusions: 1st patrol sighting-moon set. 2nd patrol sighting-Venus	

UFO SIGHTING, WHITE SANDS PROVING GROUNDS, NEW MEXICO  
3 November 1957

RELIABILITY OF SOURCE: Source appeared to be quite ingenuous, naive and impressionable. He was immaculately dressed in his Army uniform and meticulously observed military courtesy. Source appeared to be quite sincere, cooperative, and was eager to describe the sighting. By the time this interviewer was able to talk with Source, he had been interviewed several times by press representatives as well as military personnel, had discussed it with the other patrol, and so gave all answers without hesitation or uncertainty. In the opinion of this interviewer, Source is quite sincere in his belief that he truly saw "something;" however, it is believed that this has been magnified out of all proportion.

SOURCE'S DESCRIPTION OF SIGHTING: At approximately 0230, 3 November 1957, Cpl X together with PFC Y, was on a routine motor patrol of the "up range" area of the White Sands Proving Grounds, when he noticed a "very bright" object high in the sky. This object slowly descended to an altitude estimated to be approximately fifty (50) yards where it remained motionless for about three (3) minutes, then descended to the ground where the light went out. The object was not blurred or fuzzy, emitted no vapor or smoke. The object was in view for about ten (10) minutes, and Source estimated that it was approximately two (2) or three (3) miles away. It was estimated to be between seventy-five (75) and 100 yards in diameter, and shaped like an egg. Source stated that it was as large as a grapefruit held at arms length. The weather was cold, drizzling, and windy, and Source stated no stars were visible. After the light went out, Source and PFC Y continued north to the STALLION SITE CAMP and reported the incident to the Sergeant of the Guard, who returned to the area but failed to find anything. Source's signed and sworn statement to his Commanding Officer is quoted in full:

"AT about 0230-0300 Sunday morning, I, CPL X and PFC Y were on patrol in Range Area when we noticed a very bright object high in the sky. We were proceeding north toward South Gate and object kept coming down toward the ground. Object stopped approximately fifty (50) yards from the ground and went out and nothing could be seen. A few minutes later object became real bright (like the sun) then fell in an angle to the ground and went out. Object was approximately seventy-five (75) to 100 yards in diameter and shaped like an egg. Object landed by the bunker area approximately three (3) miles from us. Object was not seen again./END OF STATEMENT"

PFC Y was not available for interview, since he was on a three (3) day pass; however, his signed and sworn statement to his Commanding Officer is quoted in full:

"I, PFC Y, saw a fire like object about 0230 the 3 Nov 57 between the bunker area and South Gate, this is about all I remember seeing it was about sixty (60) or eighty (80) feet off the ground and it started down slow then it went out for a while, then I saw it again and it started down in about a forty (40) degree angle. It was about three (3) miles away and was about 120 feet in diameter./ END OF STATEMENT"

RELIABILITY OF SOURCES: Both Sources, interviewed by press and military personnel prior to this interviewer's talk with them, gave identical accounts of the sighting. The two (2) Sources were neat and observed military courtesy at all times, but impressed this interviewer as being not at all observant or competent witnesses. The general tenor of their conversation did not indicate keen insight of details, nor did it indicate above average intelligence. In the opinion of this interviewer, Source's account of the sighting has been magnified out of all proportion to its importance, and the attendant publicity has been more sensational than factual.

SOURCES' DESCRIPTION OF SIGHTING: At approximately 2000, 3 November 1957, the two (2) Sources were on a routine motor patrol near the Trinity site at the White Sands Proving Grounds, New Mexico, driving west in a jeep. The night was fairly bright with some stars visible through scattered clouds. The moon was visible. At the same moment, both Sources became aware of a bright light in the sky, which slowly climbed to approximately forty-five (45) degrees from the horizon. The light appeared to pulsate, and was the color of heated metal; red, then white. At no time did it disappear behind clouds. Sources did not observe any smoke or vapor, nor did they hear any unusual sounds. The object climbed in the sky until it looked like a star and then disappeared. The object did not have a distinct silhouette, but appeared blurred and fuzzy. Sources viewed the object for approximately twenty-five (25) minutes. Signed and sworn statements made to their Commanding Officer are quoted below:

Signed and sworn statement of SP-3 A to his Commanding Officer is quoted in full:

"On the four (4) to twelve (12) Patrol, 3rd Nov 57, SP-3 Z and I, SP-3 A, on our check at Trinity Site, at approximately 2000, we looked in the general area of the West Impact area, and seen a bright light leave the ground and proceeding slowly into the air, we watched it for a few minutes and then proceeded to Mip Site, when we reached the Range Road, the object kept getting brighter, then going dimmer, then out then proceed to get brighter again. On arriving at Mip Site, we set and watched it for a few minutes then it disappeared, we then proceeded to the HMO and notified the SGT of the Guard. On our way to the HMO we seen the object several times and then disappear again./END OF STATEMENT"

Signed and sworn statement of SP-3 Z to his Commanding Officer is quoted in full:

"On or about 2000 hours 3 November 1957 SP-3 A and myself, SP-3 Z, saw a large bright light hanging approximately fifty (50) feet over bunker. It took off at forty-five (45) degree angle and went up into the sky, then it started blinking on and off. Then it disappeared. I would say it was two or three hundred feet long and just about as wide. It was very bright, as the sun. We were approximately four or five miles west of the light./END OF STATEMENT"

SUPPLEMENTARY INVESTIGATIVE NOTES:

1. A check with Dr. Lincoln LaPaz, Head of the Department of Meteoritics at the University of New Mexico, revealed that no unusual meteorological or astronomical phenomena occurred during this period.

2. Weather records reveal that the planet Venus was at first magnitude at 2000 hours MST, and at 15 degrees elevation, with an azimuth of 225 degrees.

3. Moonset on 3 November 1957 was at 0229 hours MST at an azimuth of 270 degrees.

CONCLUSIONS:

1. The conclusion is that the first patrol probably, due to refraction, mistook moonset for an UFO and that the second patrol probably witnessed the planet Venus.

2. Both sightings were made by young and impressionable sources, on duty in lonely and isolated areas.

### *E-M and Non-E-M Saucers*

The next UFOs reported in this series belong to the old-fashioned, non-E-M variety. From White Sands Proving Grounds near Alamogordo, New Mexico, came a report that military police, while patrolling the up-range in a jeep about 2:30 Sunday morning (a few hours after the Saucedo incident), had seen a brilliant reddish-orange light, shaped like an egg, hovering in the sky. From its apparent distance (two to three miles away) and apparent size (as large as a grapefruit held at arm's length), the men deduced that it was a huge object, 75 to 100 yards in diameter [2]. After remaining motionless for about three minutes, it descended toward the ground and disappeared. (According to some versions, it later rose into the sky and then disappeared.) Members of another jeep patrol soon matched this tale with the report that on Sunday night about eight o'clock they had seen a bright, glowing object hovering in the sky but, instead of landing, it suddenly climbed until it got so far up it looked like a star. Both, jeeps, it should be noted, continued to function normally.

Officials at White Sands soon dampened the excitement. The description of the light that appeared at 2:30 A.M. included certain doubtful factors. The night had been overcast and so dark that the stars were not visible, although the cloud cover was broken at intervals. Since the sighting had not included any object of known distance or known size for comparison, the estimates of the UFO's distance and size were of no value. The light might have been small and close; it might equally well have been huge and far away. Under the circumstances, the most probable explanation was that the men had glimpsed the moon (then roughly half full) through broken clouds, and that the apparent movement was an illusion produced by the moving clouds. The Sunday evening UFO was unquestionably the planet Venus. Then nearly at maximum brilliance, it was a conspicuous object in the western sky after sunset and inspired many saucer reports during this week of anxiety.

The White Sands incidents had reached the papers, however, and contributed to the general hysteria. By Monday afternoon, flying eggs were allegedly stopping automobiles as far north as Canada, but the Southwest continued to hold the center of the UFO stage against all competition.

# AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency)	REPORT NO.	Part One	PAGE	2	OF	6	FIGS
1006th AISS Ent AFB, Colorado	AISS-WFOB-389-57						

I. SOURCE: Cpl Glenn H. Toy, RA 13542160  
Address: US Army Garrison (Det 5)  
White Sands Proving Grounds, New Mexico  
Age: 21  
Occupation: Motor Patrol, Military Police  
Education: Half of tenth grade

II. RELIABILITY OF SOURCE: SOURCE appeared to be quite ingenuous, naive and impressionable. He was immaculately dressed in his Army uniform and meticulously observed military courtesy. SOURCE appeared to be quite sincere, cooperative, and was eager to describe the sighting. By the time this interviewer was able to talk with SOURCE, he had been interviewed several times by press representatives as well as military personnel, had discussed it with the other patrol, and so gave all answers without hesitation or uncertainty. In the opinion of this interviewer, SOURCE is quite sincere in his belief that he truly saw "something;" however, it is believed that this has been magnified out of all proportion.

III. SOURCE'S DESCRIPTION OF SIGHTING: At approximately 030930Z Nov 57, SOURCE, together with PFC James E. Wilbanks, was on a routine motor patrol of the "up range" area of the White Sands Proving Grounds, when he noticed a "very bright" object high in the sky. This object slowly descended to an altitude estimated to be approximately fifty (50) yards where it remained motionless for about three (3) minutes, then descended to the ground where the light went out. The object was not blurred or fuzzy, emitted no vapor or smoke. The object was in view for about ten (10) minutes, and SOURCE estimated that it was approximately two (2) or three (3) miles away. It was estimated to be between seventy-five (75) and 100 yards in diameter, and shaped like an egg. SOURCE stated that it was as large as a grapefruit held at arms length. The weather was cold, drizzling, and windy, and SOURCE stated no stars were visible. After the light went out, SOURCE and PFC Wilbanks continued north to the BIALLOUSKILL CAMP and reported the incident to the Sergeant of the Guard, who returned to the area but failed to find anything. SOURCE's signed and sworn statement to his Commanding Officer is quoted in full:

"At about 0230-0300 Sunday morning I, Cpl Glenn H. Toy and PFC WILBANKS were on patrol in Range Area when we noticed a very bright object high in the sky. We were proceeding north toward South Gate and object kept coming down toward the ground. Object stopped approximately fifty (50) yards from the ground and went out and nothing could be seen. A few minutes later object became real bright (like the sun) then fell in an angle to the ground and went out. Object was approximately seventy-five (75) to 100 yards in diameter and shaped like an egg. Object landed in the bunker area approximately three (3) miles from us. Object was not seen again/END OF STATEMENT"

PFC Wilbanks was not available for interview, since he was on a three (3) day pass; however, his signed and sworn statement to his Commanding Officer is quoted in full:

"I, PFC JAMES E. WILBANKS, saw a fire like object about 0230 the 3 Nov 57 between the bunker area and South Gate, this is about all I remember seeing it was about sixty (60) or eighty (80) feet off the ground and it started down slow then it went out for a while, then I saw it again and it started down in about a forty (40) degree angle. It was about three (3) miles away and was about 120 feet in diameter./END OF STATEMENT"

NOTE: THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT, 50 U.S.C. 31 AND 32, AS AMENDED. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. IT MAY NOT BE REPRODUCED IN WHOLE OR IN PART, BY OTHER THAN UNITED STATES AIR FORCE AGENCIES, EXCEPT BY PERMISSION OF THE DIRECTOR OF INTELLIGENCE, USAF.

## AIR INTELLIGENCE INFORMATION REPORT

FROM (AGENCY) 1006th AISS Ent AFHQ, Colorado	REPORT NO. AISS-UF08-389-57	Part Two PAGE 3 OF 6 PAGES
<p>I. SOURCES: SP-3 Henry R. Parlow, RA 28226708 Address: US Army Garrison (Det 5) White Sands Proving Grounds, New Mexico</p> <p>Age: 21</p> <p>Occupation: Motor Patrol, Military Police</p> <p>Education: High School Graduate</p> <p>SP-3 Forest R. Oakes, RA 13524749 Address: US Army Garrison (Det 5) White Sands Proving Grounds, New Mexico</p> <p>Age: 19</p> <p>Occupation: Motor Patrol, Military Police</p> <p>Education: High School Graduate</p>		
<p>II. RELIABILITY OF SOURCES: Both SOURCES, interviewed by press and military personnel prior to this interviewer's talk with them, gave identical accounts of the sighting. The two (2) SOURCES were neat and observed military courtesy at all times, but impressed this interviewer as being not at all observant or competent witnesses. The general tenor of their conversation did not indicate keen insight of details, nor did it indicate above average intelligence. In the opinion of this interviewer, SOURCE's account of the sighting has been magnified out of all proportion to its importance, and the attendant publicity has been more sensational than factual.</p>		
<p>III. SOURCES' DESCRIPTION OF SIGHTING: At approximately 060300Z Nov 57, the two (2) SOURCES were on a routine motor patrol near the Trinity site at the White Sands Proving Grounds, New Mexico, driving west in a jeep. The night was fairly bright with some stars visible through scattered clouds. The moon was visible. At the same moment, both SOURCES became aware of a bright light in the sky, which slowly climbed to approximately forty-five (45) degrees from the horizon. The light appeared to pulsate, and was the color of heated metal; red, then white. At no time did it disappear behind clouds. SOURCES did not observe any smoke or vapor, nor did they hear any unusual sounds. The object climbed in the sky until it looked like a star, and then disappeared. The object did not have a distinct silhouette, but appeared blurred and fuzzy. SOURCES viewed the object for approximately twenty-five (25) minutes. Signed and sworn statements made to their Commanding Officer are quoted below:</p> <p>Signed and sworn statement of SP-3 Henry R. Parlow to his Commanding Officer is quoted in full:</p> <p>"On the four (4) to twelve (12) Patrol, 3rd Nov 57, SP-3 OAKES and I, SP-3 Henry R. PARLOW Jr. on our check at Trinity Site, at approximately 2000, we looked in the general area of the West Impact area, and seen a bright light leave the ground and proceeding slowly into the air, we watched it for a few minutes and then proceeded to Trip Site, when we reached the Range Road, the object kept getting brighter, then going dimmer, then out then proceed to get brighter again. On arriving at Trip Site, we sat and watched it for a few minutes then it disappeared, we then proceeded to the RTO and notified the SGT of the Guard. On our way to the RTO we seen the object several times and then disappear again./S.D. or SPAT. AT"</p> <p>Signed and sworn statement of SP-3 Forest R. Oakes to his Commanding Officer is quoted in full:</p>

## AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency)	REPORT NO.	Part Two	PAGE 4	OF 6	PAGES
1006th AIBS Ent AFB, Colorado	AIR-IFOS-389-57				

"On or about 2000 hours 3 November 1957 SP-3 Barlow and myself, SP-3 Forest R Oakes, RA 13524749 saw a large bright light hanging approximately fifty (50) feet over bunker. It took off at forty-five (45) degree angle and went up into the sky, then it started blinking on and off. Then it disappeared. I would say it was two or three hundred feet long and just about as wide. It was very bright, as the sun. We were approximately four or five miles west of the light. / 1006th AIBS

FROM (Agency) 1006th AFS Ent AFB, Colorado	REPORT NO. AFIS-1708-307-57	Part Three PAGE 5 OF 6 PAGES
--	--------------------------------	---------------------------------

## SUPPLEMENTARY INVESTIGATIVE EFFORTS:

1. A check with Dr. Lincoln LaBar, Head of the Department of Meteorology of the University of New Mexico, revealed that no unusual meteorological or astronomical phenomena occurred during this period.
2. Weather records reveal that the planet Venus was at first magnitude at 2000 hours MST, and at 15 degrees elevation, with an azimuth of 225 degrees.
3. Moonset on 3 November 1957 was at 0229 hours MST at an azimuth of 270 degrees.

---	--------------------------------	--------------------------------

### CONTENTS OF THE REPORTING OFFICER:

1. The opinion of the preparing officer is that the first patrol mistook moon-  
not for an unidentified flying object, and that the second patrol merely witnessed  
the planet Venus.
2. Both sightings were made by young and impressionable SOURCES, on duty in  
lonely and isolated areas.
3. Identification criteria for planets are applicable for each sighting.

CONTRARY TO PRESS REPORTS. FROM LIMITED DATA IN OFFICIAL REPORT, REFERENCE TT MESSAGE CGC SEBAGO WPG 42, COPY YOUR HEADQUARTERS. FOLLOWING CONSIDERED OUR TENTATIVE CONCLUSIONS:

- a. IMPRESSION THAT ONLY ONE OBJECT OBSERVED APPEARS ERRONEOUS. FOUR SEPARATE TARGETS INDICATED. 3 ON RADAR, ONE VISUALLY.
- b. EACH TIME SUCCEEDING TARGET PICKED UP IT WAS IN ALMOST DIRECT OPPOSITE DIRECTION FROM PRECEDING TARGET AND SOME DISTANCE AWAY.
- c. A TIME-DISTANCE PLOT INDICATES ONE TARGET RETURN HAD SPEED APPROXIMATELY 250 MPH, ANOTHER 660 MPH, SUGGESTING PROPELLER TYPE AND JET AIRCRAFT RESPECTIVELY.
- d. VISUALLY SIGHTING ONLY 3 SECONDS, BRILLIANT LIKE PLANET, MOVING WITH HIGH SPEED, BUT HORIZONTALLY, REPEAT HORIZONTALLY, AGAIN SUGGESTIVE OF AIRCRAFT.
- e. AREA OF INCIDENT IS SCENE OF MANY FLIGHTS AND OPERATIONS OF NAVY AND AIR FORCE. HOWEVER, WE CANNOT CHECK THE COUNTLESS POSSIBLE ORIGIN OF AIRCRAFT AND THEIR FLIGHT PLANS.
- f. ON BASIS OF ABOVE, MANEUVERS AND SPEEDS SUGGESTIVE OF CONVENTIONAL AIRCRAFT FOR MOST PART. HOWEVER, THE SUDDEN APPEARANCE AND DISAPPEARANCE OF THE TARGETS COULD BE INDICATIVE OF SPURIOUS RETURNS (FALSE TARGETS). IN ANY EVENT, MORE THAN ONE RETURN IS INDICATED, CONTRARY TO

PRESS REPORTS.

PART III. LEVELAND, TEXAS, "BLUE LIGHT" CASE. INFORMED BY COMMANDER, 1006TH AISS THAT INVESTIGATION PROCEEDING SATISFACTORILY. FURTHER DATA DISCLOSE FOLLOWING:

- a. CONTRARY TO KEYHOLE'S AND WASHINGTON PRESS REPORTS ONLY THREE, NOT NINE PERSONS WITNESSED INCIDENT.
- b. OBJECT OBSERVED FOR ONLY FEW SECONDS, AND NOT LENGTHY PERIOD AS IMPLIED BY PRESS.
- c. MIST, RAIN, THUNDERSTORMS AND LIGHTNING DISCHARGES IN SCENE OF INCIDENT, FACT NOT QUOTED BY NEWSPAPER RELEASES.
- d. THE FOLLOWING POSSIBILITIES, REPEAT POSSIBILITIES, BEING CHECKED, WHICH COULD RESULT IN UNUSUAL PHENOMENA OBSERVED PARTICULARLY UNDER DARKNESS, MIST AND RAIN: (1) BURNING GAS FROM OIL OPERATIONS IN THE AREA, REFLECTING OFF LOW CLOUD CEILING EXISTING AT THAT TIME, (2) DOWNED POWER LINE GIVING OFF SPARK DISPLAY IN CONTACT WITH WET GROUND, (3) ELECTRICAL DISCHARGE OR SIMILAR PHENOMENA LIKE ST. ELMO'S FIRE CAUSED BY RIGHT COMBINATION OF WEATHER AND OTHER CONDITIONS, AND (4) "BALL LIGHTNING" A RARE, BUT NEVERTHELESS, POSSIBILITY IN VIEW OF LIGHTING DISCHARGES IN VICINITY.

PART IV. SIGHTING AROUND WHITE SAND PROVING GROUND, NEW MEXICO AREA. INFORMED THAT MAJOR GENERAL LEIGHTON DAVIS, COMMANDER HAS SET UP INVESTIGATIVE COMMITTEE TO LOOK INTO SIGHTINGS. REPORTED THAT PRINCIPAL JAMES STONE, ENGINEER
