Summary:

1. One object of dirigible shape; aluminum in color; approximately size of B-36 fuselage stacked double, with three portholes at aft center, 1/3 from top; no trail or exhaust; no propulsion system noted; speed not estimated; no sound; moved from SE to SSE, hovered for 35 seconds, disappeared rapidly SSE into overcast.

2. Time of sighting, 23 Oct 50, 1242, for approximately 60 seconds.

3. Observation was visual from surface.

4. Observer was about 2 miles west of Bonlee, N.C., on Highway 421, heading SE, at coordinates 35° 39' N - 79° 25' W. Object was approximately 2 miles distant beneath overcast of 600-800 feet, traveled from SE to SSE, hovered, and disappeared into overcast SSE.

5. Observer was Mr. Frank M. Risher, of 324 S. Eugene Street, Greensboro, N.C., a former Air Force Pilot.

Statement of Mr. Frank M. Risher, 324 S. Eugene Street, Greensboro, N.C.

On 23 October 1950, at 1242, as I was traveling SE on Highway 421, 2 miles West of Sanlee, N. C., I sighted an unidentified object in the sky. This object was similar in shape to a dirigible, but no control surfaces, propulsion system, trail, or exhaust were visible. In size, it appeared to be equivalent to two B-36 fuselages stacked one above the other.

The object appeared to be about two miles distant, and as I watched it, it moved across the highway from SE to SEE, hovered for 30 seconds, and disappeared into the overcast SSE. Overcast was 600-700 feet.

The total time that I observed the object was about 40 seconds. When I first saw it, I thought possibly it was a water tank in Sanlee, until it started moving.

The observation was visual from the surface.

I am a former Air Force pilot, and my home address is 324 S. Eugene Street, Greensboro, N.C.

/s/ Frank M. Risher
