To: MADAR Network <madar-network@googlegroups.com>

ALL OPS

History is a good place to start when it comes to background nuclear radiation and UFOs. Rather than suggest that an alien intelligence would not go around Planet Earth and leave dangerous radioactive traces, the fact is, incidents involving BG are documented.

Having said that we can only suggest that a geiger counter be part of our equipment PLL, or prescribed load list. And Level I and II Ops and skywatch teams can benefit by it.
