2:00am

Itaipu Fort, Brazil

many

Disc-shaped, huge. Emitted a strong orange
luminescence. (as it was hovering over Fort)

2 sentinels saw obj from in from sea at tremend-
ous speed. In a few sec it stopped + came
down slowly, hovering 130-190' above casemate.
Began to make whistling sound, + an intolerable
heat surround sentinels. One fainted; the
other began screaming. As personnel from
Fort were awakened, the Fort's electrical

System failed. Soon the lights were revived
& all became ~~the~~ normal. Site in sky was
seen speeding off.
