PRELIMINARY EVALUATION  
OF A UFO REPORT

Log Number: 900736 Initiator: NORMA CRODA

5076 DENNER LN

Received: 7/7/90

INDIANAPOLIS, IN 46268

The report of a claimed UFO event witnessed by KRYSTAL COHEN-DODGE ET AL on 12/21/89 has been evaluated. The current status of the case record is indicated below.

(A) Complete: A preliminary rating is assigned. [See reverse side.]

Hynek - CE-1 Berliner - 4/1 Speiser - 55-P4

B. Resolved: A known event in the same time period involving \_\_\_\_\_ appears to account for the observation.

C. Incomplete: A determination cannot be reached at this time. The following is needed to finalize the case record.

1. Additional form(s) / materials: \_\_\_\_\_

2. Completion of form(s): \_\_\_\_\_

3. Information from collateral contact(s): \_\_\_\_\_

4. Explanation of sighting factor(s): \_\_\_\_\_

Thank you for your continued efforts and commitment to the UFO investigative process. Please forward any materials requested (indicating the Log Number) to your MUFON state or Provincial Director.

c: State/Provincial Director FRANCIS RIDGE, 618 DAVIS DR.  
MT. VERNON, IN 47620

Walter H. Andrus Jr., International Director

# REPORT CLASSIFICATIONS

HYNEK - CE-1

DE-1 - Nocturnal light

DE-2 - Daylight disc

DE-3 - Radar-visual

✓ CE-1 - Light/object in proximity

CE-2 - Physical trace

CE-3 - Occupant

Berliner - 4/1

Strangeness Scale:

- 0 - Identified as a known object/phenomenon or a report lacking clear UFO content
- 1 - Night light with no apparent object
- 2 - Night object
- 3 - Daylight object seen at a distance
- ✓ 4 - Night Close Encounter of the First Kind
- 5 - Daylight CE-I
- 6 - Ambiguous CE-II
- 7 - Unambiguous CE-II
- 8 - CE-III
- 9 - CE-III with occupant reaction to witness
- 10 - CE-III with meaningful communication

Credibility Scale:

- 0 - Witness(es) lacking believability
- ✓ 1 - Single average witness
- 2 - Multiple average witnesses
- 3 - Single exceptional witness
- 4 - Multiple exceptional witnesses
- 5 - Radar/visual observation
- 6 - Still photo(s) by amateur
- 7 - Still photo(s) by professional
- 8 - Movie/videotape by amateur
- 9 - Movie/videotape by professional
- 10 - Live television

SPEISER - S5-P4

Strangeness Factor:

S1 - Explainable or explained

S2 - Probably explainable with more data

S3 - Possibly explainable, but with elements of strangeness

S4 - Strange; does not conform to known principles

✓ S5 - Highly strange; suggests intelligent guidance

Probability Factor:

✓ P1 - Not credible or sound

P2 - Unreliable witness; possible hoax

P3 - Somewhat credible or indeterminate

✓ P4 - Credible and sound

P5 - Highly credible, leaving almost no doubt

COMMENTS: NORMA -

FRAN RIDGE FORWARDED A COPY OF YOUR REPORT ON THIS CASE. ALTHOUGH YOU WERE UNABLE TO SECURE THE ADDITIONAL FORM 1 AND A FORM 5 FROM THE WITNESSES, THERE IS CERTAINLY ENOUGH SUBSTANTIATION TO WARRANT A COMPUTER ENTRY AS A SINGLE WITNESS CE OF THE FIRST KIND.

IF I RECALL CORRECTLY (AMONG THE 500+ CASES OVER THESE PAST FEW YEARS), A VEHICLE OF "BARGE" PROPORTIONS WAS OBSERVED ON AT LEAST ON OTHER OCCASION. IF YOU DO LOCATE THE COUPLE AGAIN, IT WOULD BE VERY USEFUL TO HAVE SOMEONE WITH ARTISTIC/MECHANICAL DRAWING SKILLS TO ASSIST IN RENDERING A BETTER DRAWING.

THANKS FOR A VERY GOOD EFFORT.

## INVESTIGATION REPORT

Date of Sighting: December 21, 1989

Local Time & Time Zone: 1:00 AM

Location of Sighting: Nr. Martinsville, IN

County: Morgan

Number of Witnesses: Two

Principal Witness: Krystn Cohen-Dodge

Permission To Use Name: Given

---

### SIGHTING BACKGROUND (FI-4)

---

A description of the circumstances surrounding the receipt of the initial UFO sighting information.

Jennifer Williams of Vincennes, IN, notified SSD/FI Jerry Sievers that there had been a rather spectacular sighting. The place was mistakenly reported as Indianapolis and in the evening. A rectangular object, described as, as large as an aircraft carrier, was allegedly witnessed by two persons for several minutes.

---

### SIGHTING ACCOUNT-FORM 1 DATA

---

A brief chronological composite or consolidation of the UFO sighting account(s).

1989 12/21, BET 1:00 & 2:00 AM. MARTINSVILLE, IN (MORGAN COUNTY). CE-2. FI NORMA CRODA.

Lady and her husband observed two objects while returning to Indianapolis from Bloomington early that Thursday morning. They were driving on Hwy 37 and talking when they noticed something with lights on it over a field. "It was hard to tell the actual shape of the craft but the lights were circular around it. There were orangish-yellow lights around the bottom of the craft, but I could not see all the way around it." When they were close enough to see it better (200 yards) they noticed lights here and there around it and could see quite clearly that the object was "hovering above the ground about as high as a helicopter". They had to turn around after passing a pulled-over semi, and when they returned, "the craft was on my (lady's) side of the car and it took off to the west up over a ridge of hills", and then the lights went out. (Field extends approximately 1/4 mile from the road to the trees). "It did not go down, but it disappeared. I very much got the feeling that it knew we were watching." They got back to the main road and headed north to Indy. (FI found upon checking the area that an Indianapolis Power & Light generating plant was located just over the ridge right near where the object disappeared).

About seven miles down the road they were discussing the sighting and the lady was searching the sky. On her side of the road (east) "there was this craft that was huge and it was right there! It hung in the air. It was a large craft like an

aircraft carrier or barge. It was angled or tilted toward me. It had a dome on the back and a long flat area on the front with two huge searchlights. They made me nervous. It just hung there! We stopped the car and I rolled down the window. I could not hear any noise except my heart beating very fast. Daniel was trying to lean around me to see it, but he could not see the whole thing but could see the lights and felt the presence of it (a strange feeling in the joints, energy rushing through his body). That physical feeling stayed with us for quite a while afterward. So we sat and watched it, then it began to move toward me. I did not want the lights to shine on my car and I told Daniel to go. It stopped turning and, as we drove away I continued to watch it until I could not see it anymore." (FI noted the power lines from the IP&L station crossed the road & fields at this very location).

The main witness described the second craft as "very industrial looking, too heavy to be hanging in the sky. Industrial metallic with intricate squares on the outer sides, metal working that might have been indentations. If this had been a boat, the indentations would be for stairs, wasn't smooth. Dome was smooth looking, iridescent, illuminated from inside. It was not a high dome. The two lights on front of craft were like search lights."

---

#### SIGHTING INVESTIGATION (Activity Log)

---

Simple chronological log by date, time and place denoting the tasks the FI carried out during the investigation.

Jan 31, 1990. SSD/FI Jerry Sievers notified State Director. FI-4, Notice Of Preliminary Report, was completed over the phone. A Case Transmittal/Acceptance form was submitted to FI Croda.

Feb 6, 1990. Form 1 completed by witness.

Feb 21, 1990. Letter & FI notes received from FI Croda.

Feb 27, 1990. Letter to FI Croda requesting Form 5, for physiological evidence.

Mar 6, 1990. Letter from FI Croda stating she had mailed another Form 1 & two Form 5's.

May 7, 1990. Letter to FI Croda requesting completed forms.

Jun 7, 1990. Telephone call from FI Croda: Dodges had moved to S. Indiana. As soon as they are located, follow-up will be conducted.

---

#### INTERVIEW AND INTERROGATION

---

A description of the interview and interrogation. This should include where and how the interview took place (mail, telephone, or onsite).

See FI Notes.

---

#### ADDITIONAL WITNESS CHECK

---

The circumstances surrounding how, when, and where additional witnesses were located and any subsequent interviews and interrogations including the FI's personal impressions of the these witnesses and their home environment, interests, etc.

No other witnesses have been located.

---

#### SOURCE TEST (SYNOPSIS)

---

A list of what natural or man-made objects were checked in an effort to identify the stimulus for the reported UFO is attached to this report. The reasons for rejecting or suspecting each, as being the stimulus, should be clearly noted.

Attached.

---

#### WITNESS BACKGROUND CHECK

---

A list of the persons checked, their comments about the witness's character and their relationship to the witness. This section should include the FI's impressions of the witness personality, credibility, etc.

Although this does not appear to be a missing time case, it does appear that one or both of these people have had an earlier abduction experience. The primary witness has had other incidents since age 8-10.

---

#### SIGHTING EVALUATION

---

The result of the overall analysis of the data collected by the FI.

Unidentified

BERLINER STRANGENESS SCALE:

6 - Ambiguous CE-2 (Trace, capable of being understood in more than one way).

BERLINER CREDIBILITY SCALE:

2 - Multiple average witnesses.

SPEISER STRANGENESS FACTOR:

SS - Highly strange; suggests intelligent guidance.

SPEISER PROBABILITY FACTOR:

P4 - Credible and sound.

Significant

**FINAL REPORT BY STATE DIRECTOR**

---

Based on the information I have from the FI, this appears to be a significant case, involving one or more persons who have had other UFO-related experiences, the typical CE-4 encounter as described by Budd Hopkins. We do not as yet have the completed Form 1 from her husband, nor either Form 5. Since many months have passed since the investigation started, and the Dodges have moved to southern Indiana with no (as yet) forwarding address, the best we can do at this time is to file this report, as is, until (and if) further information is received.

Natural Sources eliminated immediately, the only thing left would be Man Made Sources. The only possible candidate (besides UFO) would be a refueling operation where the witness was a poor observer and misjudged the large distance. This is considered to be too much of an assumption, based on the FI's contact with the witness. A total lack of sound would indicate either little or no sound was made by the object, or, the object (UFO or jet for that matter) was too far away. Having the other witness' testimony in this case, showing the object at the 200 yard range, would be very helpful. An object at even twice that distance, (1200'), with no sound would be hard to explain in natural or manmade terms.

The "pulsing" that they felt "inside" doesn't sound like mere excitement. The fact that both felt it, sounds suspiciously like a real anomaly.

Signed 

Francis L. Ridge  
State Director, MUFON-Indiana

February 21 1990

Fran Ridge  
State Director-MUFON  
618 Davis Drive  
Mt. Vernon, IN 47620

Dear Fran:

Enclosed is the report from Krystn Cohen-Dodge. who with her husband Daniel saw two objects on the morning of December 21, 1989 while returning to Indianapolis from Bloomington.

Her husband was not available at the time of the interview and I will be meeting her again next week. Hopefully he will talk to me at that time.

Fran, I have contacted Mark Steinmetz by phone. He could not talk to me about what has happened to him but will write to me. Hopefully it is UFO related and talking to someone will give him some satisfaction. I find it difficult to believe the number of cases we've had these past few months. I have lost the information about the sighting in Fort Wayne reported by the couple living in Zionsville. If you can send me their names and address, I will try to call them.

I have tried again to reach Steve Kellermeyer but he does not answer. I'll send the information as soon as I contact him.

*Norma*  
Norma

*PS: My notes are enclosed with ( ) on following reports.*

REPORT OF SIGHTING WITNESSED BY KRYSTN COHEN-DODGE FROM TAPED  
INTERVIEW ON FEBRUARY 6, 1990.

INVESTIGATOR - NORMA J. CRODA, 5076 DONNER LANE, INDPLS IN

It was Thursday, December 21, 1989. in the early morning a very cold morning about 1 A.M. We (Krstyn, her husband Daniel, son age 18 months and daughter age 4) were driving on SR 37 North and had just past Martinsville (about 30 miles south of Indpls) heading toward Indianapolis. Daniel and I were having a very intense conversation and I was looking at the stars. We drove past the Martinsville Country Club and up over a hill. You can see the fields way down in front of you and the road goes off to the right. There was something with lights on it over that field. I cannot tell you how long we watched it. From the top of that hill to the valley we watched it. I just watched it and it dawned on me that it was not moving and I told Daniel. He said you are right it is not moving. We drove past a little Pantry Store and we just watched it. It was hard to tell the actual shape of the craft but the lights were circular around it. There were orangish-yellow lights around the bottom of the craft but I could not see all the way around it. When we were close enough to see it, was not a continuous beam of light but lights here and there around it. We could then see quite clearly it was hovering above the ground about as high as a helicopter. I said do you think it is a UFO and he said yes let's turn around. Right then we passed a semi that was stopped on the side of the road and we found a road where we could turn around. When we went back the craft was on my side of the car and it took off to the west up over a ridge of hills and then it was lights off. (Field extends approximately 1/4 mile from road to trees) It did not go down but it disappeared. I very much got the feeling that it knew we were watching.

There is a road next to the Country Pantry and we took that road but there was a lot of construction and the road was closed. We went back to the main road and headed north to Indianapolis.

(I drove past the Country Pantry and took the road Krystn mentioned. It takes you to Foxcliff, an area of large expensive homes. The area is not completely developed but there are many homes in Foxcliff and newer ones in the surrounding woods and fields. I followed the two line paved road west until it ended at a north/south road. Turned north and about 1/8th of a mile came upon the Indianapolis Power and Light Company Generating Plant on White River just over the ridge where the first craft disappeared. I will contact the personnel working there to see if they noticed any unusual fluctuation in power on that particular morning.)

We were discussing what we saw and I was searching the sky. I just looked up on my side of the road (east) and there was this craft that was huge and it was right there. (Approximately 7 miles from first sighting) It hung in the air. It was a large craft like an aircraft carrier or barge. It was angled or tilted toward me. It had a dome on the back and a long flat area on the front with two huge searchlights. They made me nervous. It just hung there. We stopped the car and I rolled down the window. I could not hear any noise except my heart beating very fast. Daniel was trying to lean around me to see it but he could not see the whole thing but could see the lights and felt the presence of it (a strange feeling in the joints, energy rushing through his body). That physical feeling stayed with us for quite a while afterward. So we sat and watched it then it began to turn toward me. I did not want the lights to shine on my car and I told Daniel to go. It stopped turning and as we drove away I continued to watch it until I could not see it anymore. (This sighting took place near the Waverly Inn, a small restaurant on the opposite side of the road. Also, Krystn mentioned that there were large power lines in that area. There are power lines coming from the Generating Plant that cross the road and fields at that location. So the first sighting was almost directly in line with the second one, following the power lines.)

We continued to drive down the road, crossed a major intersection and Daniel said he needed to stop the car and get out. (They drove through a subdivision and ended up in a church parking lot. The church was lit up and reminded them of the last craft (barge). I drove past the church during the day and it originally was a circular. A long flat addition might give it the appearance of the second craft. The church is lit up at night and there is a computerized sign near the road to the church. Krystn said that when they drove into the church yard and observed the sign. it said: "Welcome, come join us." (I guess this really surprised both she and I her husband after what they had observed down the road.)

I have not met Daniel but plan to do so. I am hoping he will complete the form for me too. I must tell you that Krystn has had three other sightings before this latest episode. Her first sighting was with her parents when she was about eight or ten years old and occurred in Michigan. The other sightings also occurred up in that same area of the country.

The next day after the sighting, Krystn called around to see if anyone else had seen the same thing or if the military was performing maneuvers, ,but no reports. She thinks Daniel called the State Police too. Again she stresses the feelings they experienced during the sighting.

Krystn described the second craft as very industrial looking, too heavy to be hanging in the sky. Industrial metallic with intricate squares on outer sides. Metal working that might have been indentations. If this had been a boat, the indentations would be for stairs, wasn't smooth. Dome was smooth looking, iridescent, illuminated from inside. It was not a high dome. The two lights on front of craft were like search lights.

There is no reason to believe that an abduction occurred since there was no obvious loss of time involved, no scars, etc. But I would not be surprised if both these people had been abducted earlier. Again, I must stress this is only my opinion based on what I have learned about their personalities. I do not care to elaborate at this point because this case was reported only as a sighting. Krystn did say she never felt threatened but experienced a friendly feeling and a loss when they could no longer see the crafts. She hoped they were not offended because they did not stay in the area.

I hope to add more to this report in the future.

Indianapolis, IN 46268

Dear Norma:

Got your "message", then your report, on the Kohen-Dodge case. Good case! Good work!

The "pulsing" they felt and didn't hear falls under physiological evidence and you need to have them fill out a Form 5, enclosed.

A Form 1 for later use is also enclosed.

Again, looks like things are starting to happen up there. Keep up the good work.

Sincerely,

Francis L. Ridge  
Director, UFOFC  
State Director, MUFON Indiana

March 6 1990

Fran Ridge  
State Director-MUFON  
618 Davis Drive  
Mt. Vernon, IN 47620

Dear Fran:

I have looked over the rough drafts of report for Kellermeyer and Mike Adams and added what I could.

X I have mailed to Krstyn Cohen-Dodge two forms 5a and a form 1 for her husband to complete. Will send them as soon as they return.

Fran, I received a letter from Mark Steinmetz. I'm going to try and talk to him in person and see what my feelings are about his personality. His letter told me only that he's had an interest in UFOS for a number of years but no record of a sighting, lost time, etc. When he was in high school he met a guy who became his best friend and they started planning for an organization that would become totally self-sufficient. Their purpose was to build a spacecraft and leave earth. His friend became so obsessed with the idea his family had him committed to a mental institution. Mark feels he may have been contacted after reading books on astral projection, etc. I told him I was a UFO investigator of sightings and did not know if I could help him but would be willing to meet and talk about his feelings. He seems to be religious signing his letters "Sincerely in Christ". I will let you know what develops.

Received a call Sunday evening from a Bryan Stohm, who contacted you after reading the article in NEW TIMES. He is interested in talking to me but cannot recall any sightings, etc. Would like to join MUFON later when he has extra money. I am sending him a membership application and one page brief on MUFON.

As always Fran I am keeping busy and will be attending the Saturday session in Clarksville on March 31st. Also a few of us are making plans to attend the MUFON SYMPOSIUM in Pensacola. Next weekend will be going to Ohio and may stop to say hello to Don Worley. Would really like to meeting Len Stringfield. Do you know if he lives near Cincinnati? Think I asked you that once before and ended up calling Walt. I think I have Mr. Stringfield telephone number. May give him a call.

May 7, 1990

NORMA CRUDA  
5076 Donner Lane  
Indianapolis, IN 46268

Dear Norma:

✓ In order to wrap up the Martinsville case, I need the other Form 1 from Krstyn's husband, plus the Form 5's. I can do it without them, but the case would go down as a single witness report which affects the final rating.

On the Fort Wayne case, I still need the Form 1's. Remember, although the case occurred up there at Fort Wayne, the witnesses are from Zionsville. Pierce was supposed to check it out and didn't. You said in your letter that you were working on it. CUFOS thinks it's a good case.

Starting to get caught up here, but I may have to take a 9-5 job! Boy, I hope things don't change because of it. We're trying for a meeting at Vincennes in September or October.

More later.

Sincerely,

Francis L. Ridge  
Director, UFOFC  
State Director, MUFON Indiana
