Reurmsg DO 151-J reporting UFOB's observed on radar scope at 0230Z 16 Oct 53. Request a Form 112 be forwarded to this Center with special attention to the following items: 1) Were the 25 targets observed to follow the same path several times during the period of observation, 16/0230Z to 17/0445Z? 2) All available weather data such as temperature and humidity vs altitude. 3) Exact track paths; these tracks may indicate interference or jamming.

In reply cite Project Blue Book.

SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 113—Part II.)

I. CONTENTS: Report F30-T-14A. Radar Sightings of UFOBS, PRESQUE ISLE, AFB (GEOREF HKGB 5841) MAINE.

II. SUMMARY: Project Blue Book: twenty five (25) UFOBS observed, on radar scope, at PRESQUE ISLE AFB, (GEOREF HKGB 5841) MAINE, during period 17/0230Z Oct 53 to 17/0445Z Oct 53. Radar sightings observed by four (4) members of Detachment 1974-1, 1974th AACS Squadron, Presque Isle AFB, Maine. Interception attempted by one (1) PIAFB based Foxtrot-89 type A/C, from 0308Z to 0413Z. During attempted interception no physical sighting or contact was made. No more sightings observed since 17/0445Z/Oct 53.

AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency)	REPORT NO.	PAGE 1 OF 1 PAGES
Flight 3-0, 4602d AISS	F30-T-14A	

Report of Radar Sightings of UFOBS

I. INITIAL REPORT: Initial Report of Subject UFOBS made 17 October 1953 Ref: TWX 151-J from Commander 528th Air Defense Group Presque Isle AFB, Maine 17/1737/Oct 53.

II. INVESTIGATION: At 17/0200Z/Oct 53, Limestone AFB, GCA Station (GOSREF HKOB 1055) alerted Presque Isle AFB, GCA Station (GOEREF HKGB 5841), in an effort to confirm observations of unidentified objects seen on Limestone AFB, PPI Radar scope. Presque Isle AFB, GCA Station went into operation at 17/0230Z/ Oct 53. The objects were located and observed by M/SGT. STANLEY YUCIKAS, M/SGT EDWIN F. NEWELL, T/SGT NORMAN K. FALLS and A/1C WILLIAM M. BRINLY of the 1974th Airways & Air Communications Service Squadron, Presque Isle AFB, during the period 17/0230Z/Oct 53 to 17/0445Z/Oct 53. Initial Report indicated duration of observation 16/0230Z/Oct 53 to 17/0445Z/ Oct 53. This is erroneus, duration of observation was 17/0230Z/Oct 53 to 17/0445Z/Oct 53. Objects were approximately twenty five (25) in number, resembled conventional A/C targets on PPI scope. One (1) F-89 aircraft was scrambled at 17/0308Z/Oct 53 to attempt interception. No physical or electronic observation or contact was made. The objects were observed at irregular intervals, in groups of three (3) to eight (8). They first appeared within ten (10) mile marker on PPI scope in NW Quadrant (App 340 degrees). From NW Quadrant objects traveled in approximately same path, without deviating, and then disappeared in ground return in SW Quadrant (App 225 degrees). All objects traveled at approximate speed of eighty (80) to one hundred (100) miles per hour. There was no apparent formation, some tracks were parallel, others followed preceding tracks. Exact tracks were not plotted, nor were photos of PPI scope made. Altitude could not be determined, due to limitations of GCA set, but was estimated to be from 2000' to 6000' feet. Altitude estimated at a three (3°) degree angle of tilt of radar antenna.

B-36 type aircraft in vicinity during this period employed electronic E.C.M. intermittently from 17/0234Z/Oct 53 to 17/0258Z/Oct 53.

Weather conditions during period of sightings:

Pressure Level	Temperature	Dew Point	Relative Humidity
Surface	38° Far.	29°	70 %
4,860 Ft. Alt.	- 0.5° Cent.	- 12° Cent.	43 %
9,900 Ft. Alt.	- 7.5° Cent.	Unk	Unk

Winds aloft- 6,000 320/40K, 10,000 330/45K, 16,000 320/60K, 20,000 320/70K, 30,000 320/85K, 45,000 270/100K.

17/0315Z/Oct 53: Clear 20 132/41/33 West 7 989
17/0415Z/Oct 53: Clear 20 139/37/30 WNW 4 991

No further sightings or observations have been reported.
