10. BRIEF SUMMARY OF SIGHTING

Flying wing or delta shaped obj, size of volleyball, bright silver color, solid shape with no openings, props or exhaust & no other conventional means of motivation visible. Had a varied pitch whistling sound fading & rising about 5 seconds in between rise & fall of the pitch. Had quieter sound than a jet.

11. COMMENTS

The description of the obj is typical of an F-100 series type a/c.

MEMORANDUM FOR: Mr. Riley

THRU: Colonel Gilbert
Mr. Archer
Colonel Long

SUBJECT: Fighter Interceptor Squadrons Non-Compliance with UFO Directives (AFR 200-2)

1. This reply to a UFO report submitted by a Fighter-Interceptor Unit is being brought to the attention of staff and other interested ATIC offices as another of similar instances of non-compliance. The undersigned recommends that it also be brought to Headquarters, USAF attention as an example of non-compliance and/or apparent disinterest on the part of certain Air Force units which are in the best possible position to take immediate action to solve UFO sightings, but for some reason refuse to do so.

2. Briefly, here we have a fighter interceptor unit by whose own admission sighted an unconventional object in its area; the unidentified target was picked up by its own approach radar, reported that the object was unconventional, and states that there were no known or locally assigned aircraft in its area, yet took no intercept action. It is assumed that ATIC is now expected to provide a conclusion or answer.

3. This matter of non-compliance with current UFO directives has been reported to and discussed with pertinent Headquarters, USAF offices who concur that such violations be brought to their attention. This action was discussed with and approved by ATIC/Maj. Hacker, in telephone conversation, 12 August 1958.
