PROJECT 10073 RECORD CARD

1. DATE 29 Nov 60	2. LOCATION S of Kyushu Island, Japan		12. CONCLUSIONS ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☐ Was Astronomical ☐ Probably Astronomical ☐ Possibly Astronomical ☐ Other ☐ Insufficient Data for Evaluation ☒ Unknown
3. DATE-TIME GROUP Local 1838 GMT 09382	4. TYPE OF OBSERVATION ☐ Ground-Visual ☐ Ground-Radar ☒ Air-Visual ☐ Air-Intercept Radar		
5. PHOTOS ☐ Yes ☒ No	6. SOURCE Military		
7. LENGTH OF OBSERVATION 10 min	8. NUMBER OF OBJECTS one	9. COURSE E	

10. BRIEF SUMMARY OF SIGHTING

No shape; size--equivalent to North Star fm 21,000 ft; color--white, similar to second to fourth magnitude star in color; no features; Seemed to follow observers flight course. Unusual movement of white light against star background. Angle 45° fm horizon to zenith, azimuth fm 350° to 30° when sighted. About 45° above horizon at 2 o'clock position with sudden disappearance. Flight path--090° to E to start with, then followed straight path. No maneuvering; appeared to slow down on a parallel course at 030°. Appeared to be in orbital path.

11. COMMENTS

Duration suggests artificial satellite. However, check with Spacetrack rules out satellite. Balloon was launched after sighting was made; no known a/c in area. Possibly balloon launched fm Communist territory, as it is known that balloons are launched fm an area NE of Japan. Due to inability to correlate object with any known object, report is evaluated as unidentified.

Evaluation of UFO Sighting

313th Air Division
ATTN: Chief, Operational Division
APO 239
San Francisco, California

1. Reference your message 3130C-I U-11-217, dated 30 November 1960, reporting the sighting of an UFO, and requesting an evaluation of the same.

2. A check was made with Space Track to determine if the object observed was possibly an earth satellite with negative results. The object reported cannot be correlated with any known object; therefore, the sighting is being carried as "unidentified." In the future if additional information is received which results in identification, your office will be informed of our findings.

FOR THE COMMANDER:

for PHILIP G. EVANS
Colonel, USAF
Deputy for Science and Components

COORDINATION:

AFCIN-4E2x [signature] Date 16 Dec 60

AFCIN-4E2 [signature] Date 12/16/60
