1. DATE - TIME GROUP 14 January 65 14/2130Z	2. LOCATION Thaxton, Virginia
3. SOURCE Civilian	10. CONCLUSION AIRCRAFT
4. NUMBER OF OBJECTS One	
5. LENGTH OF OBSERVATION Not Reported	11. BRIEF SUMMARY AND ANALYSIS Witness watching B-52 thought to be at 10-15 miles altitude. While watching B-52 a "crazy looking cigar shaped thing" twice as large as the B-52 at the same altitude flew East at more than 2,000 mph. Witness believed that it must have had a rear jet motor. COMMENTS: Sighting probably another A/C only at a lower level to give impression of larger size and great speed. No unidentified report from the B-52. Since the B-52 pilot did not report anything unusual it is assumed that the observation was of some conventional object such as another A/C.
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE East	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No

NAP

My dear Sir:

On Thursday, Jan. 14, 1965 I was watching a B-52 flying unit 8 miles west of Bedford, Va., about 4:30 P.M. It was flying about 10,000 miles high.

A few minutes later I saw some to crazy looking objects flying twice as more slowly than the B-52, same heading, flying East a few miles north of the B-52. It must have had a real fat motor and probably was flying at +2,000 miles per hour. I am such a thing + yet can not seem to believe or accept what I actually saw. There was no electrical, or magnetic feeling.

[redacted]

Thaxton Va.

(So at first I thought some of our men might be of a different F.C. But then no maneuvering might on earth flying saucer fields.
